Contact information:

Company's full name: Vektor Grupa Limited company for trading and press

Registered at Commercial Court in Zagreb

Company's short name: Vektor Grupa Ltd.

Headquarters: Sopnički odvojak 5R, 10360 , Sesvete-Zagreb, Croatia

Address of the manufacturing plant: Sopnički odvojak 5R, 10360 , Sesvete-Zagreb, Croatia (correspondence address)

Core business: big formats print and production of light displays

Telephone:

+385 (0)1 29 80 567

+385 (0)1 23 20 165

Fax: +385 (0)1 23 16 294

Email: info@vektorgrupa.com

Web: www.vektorgrupa.com

Skype: vektorxl

Number of employees: 30-40

The number of delivery vehicles (light and heavy): 7

Working vehicles (auto crane up to height of 20 meters): 1

Personal Identification Number: 40485772360

Identification number: 080748026

EORI number: HR40485772360

VAT number: HR40485772360

Bank details:

Raiffeisenbank Austria d.d.

IBAN: HR1424840081105651881

SWIFT-BIC: RZBHHR2X

Zagrebačka banka d.d.

IBAN: HR8623600001102455523

SWIFT-BIC: ZABHR2X

The expert team of company VEKTOR GRUPA Ltd. with its ten-year experience, is in every moment ready to answer to all the challenges and demands of our partners and clients.

Our team continuously upgrades its **“know-how”**, in order to ensure our clients combination of **controlled quality product**, while respecting **arranged deadlines and affordability for every budget**.

Our production capacity includes possibility of print on almost all materials in rolls and boards, in maximum print width of 500 cm in one piece and capacity of almost 400 mph.

With usage of high-frequency welding machine, there are practically no dimension limitations.

Our offer is based on big formats print and production of light displays, with installation service based on «turnkey» principle in Croatia and Europe.

The whole production process takes place in our production hall, which provides us constant control of each production segment.

Our management is based on EU norms and regulations (printing inks and LED lightnings).

Products and services specifications:

#Wallscape	#Billboards	#Pilons
#Bigboards	#Citylights	#Totems
#Banners	#Posters	#Masts
#Mesh fabrics	#Car graphic	#Flags
#PVC foils	#Truck tarpaulin	#Direct print
#Windows graphics	#Light displays	#P.O.S. systems
#Sandblasted foil	#3D letters	#Interior and exterior decoration
#Floor and asphalt graphics	#Entrance signs	#Aluminium and steel constructions
		#Installations

Certificates:

Wallscapes

Bigboards

Textile & PVC banners

Mesh for scaffolding

Interior mesh and banners

interior PVC self-adhesive foils

Exterior PVC self-adhesive foils

Sandblasted foils

Windows graphic

Floor graphics (interior usage)

Asphalt graphic (exterior usage)

classic billboards

billboards with extensions

citylights

day/night citylight

posters

backlight posters and foils

car graphics for light delivery vehicles

truck graphics

bus graphics

tuning car graphics

truck tarpaulin

3D light signs
lightning: LED diods

Lightbox/Panflex and plexi boxes
lightning: LED diods

negative light boxes
lightning: LED diods

entrance portals
with LED lightning

mobile light totems
LED lightning- battery charged

two-side light boxes
charge:12V with speakers implementation

Totems i pylons
lightning: LED diods

aluminum and steel constructions

mobile masts with flags

polyester masts

flags

direct print on furniture
(plywood, MDF...)

direct print on glass

direct print on treated wood

direct print on transparent material
WHITE COLOR over and under the graphic

CNC contour cutting and flexion of
cardboard and board materials

3D «sales islands»

P.O.S. freestanding racks

pallet wrappers

3D silhouettes with base

cardboard replicas of products

cardboard totems

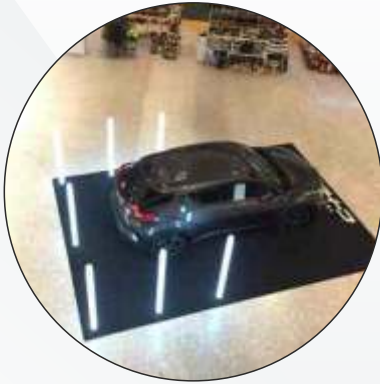

shopwindow decoration

wall-tattos and foils

hanging advertising items - Retail

presentation «islands»

3D silhouettes and stages

shopwindows decorations with
implementation of 3D elements
and electronic devices

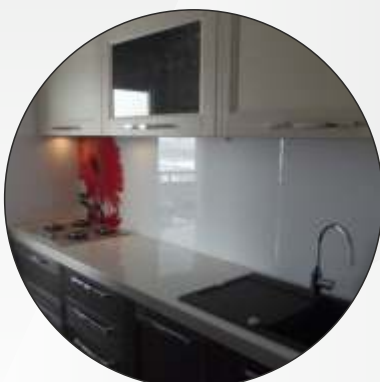

plexi shelves and counters

bars decorations

interior signage and labeling

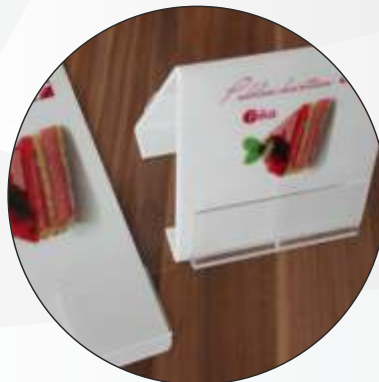

showroom decorations

exterior advertising

plexi/PVC shelves

forex and transparent plexi combination

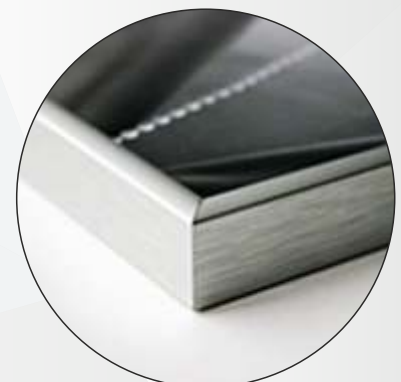

3D cut from plexi/PVC

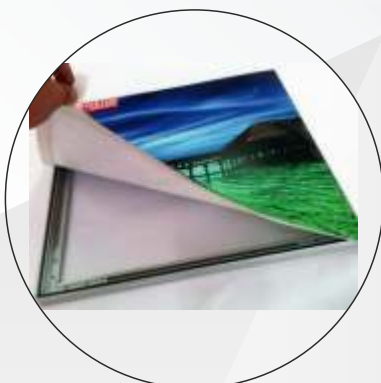

print+flexion of PVC material

multi-layer print+led

foam boards with Al frame

T-flex frames with textile banner and silicone rubber

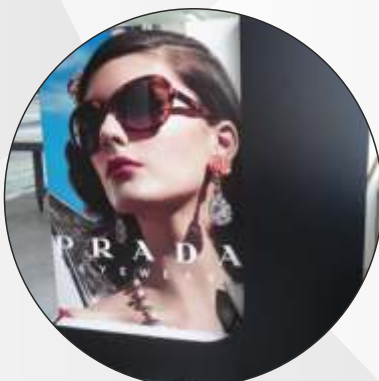

click-clack frames with/without lightning

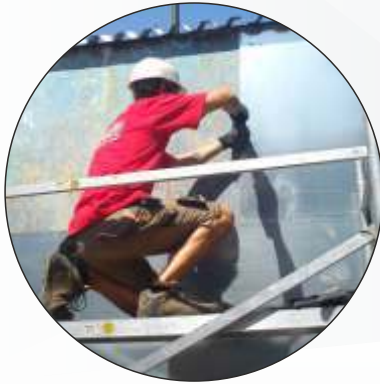

roll up display
85 x 200 cm, 120 x 200 cm, 200 x 200 cm

promotional counters

shelves with/without lightning

mounting with ferry
up to 10 meters height

mounting with ferry and auto crane

mounting with auto crane
up to 20 m height

mounting with crane up to 40 m
height and 40 t weight

mounting by certified alpinists (exterior)

mounting by certified alpinists (interior)

Efi Vutek H2000 Pro

Print by EU standards

Color: 6 (CMYKcLm) + White / White, Multi-Layer Print Capacity

Special features: white printing under and over print (over and under white print)

Graphic scheme 7pL UltraDrop™ technology

Resolution of 600 dpi up to a maximum of 1000 dpi

Extra loop in single or dual channel configurations

Max. plate width: 200 cm

Max. board length: unlimited

Max. plate thickness: 50.8 mm

Specificity: High durability and durability of the print on most sheet material.

Additional features: pre-printing material + extra protection (varnishing)

HP Scitex XL 1500, 5m

Possibility of maximum printing width – 5 meters in one piece.

With usage of High Frequency welders, the width is unlimited.

Printing with four (C,M,Y,K) or eight colors (C,M,Y,K,lc,Lm,Ly,Lk) on following materials:

- Megaboard Mesh and frontlight Wallscape
- PVC foils and Window graphics
- Blueback and citylight paper
- All other rolled materials

Specificity: high speed printing with color uniformity.

HP Scitex XP 2700, 3.2 m

Print by EU norms

Possibility of maximum printing width – 3.2 meters in one piece.

With usage of High Frequency welders, the width is unlimited.

Printing with four (C,M,Y,K) and eight colors

(C,M,Y,K,lc,Lm,Ly,Lk) on following materials:

- Megaboard Mesh and frontlight Wallscape
- PVC foils and Window graphics
- Citylight posters

(full satiation of color during illumination, 100% supstitu 4/3)

- All other rolled materials

Advantage:

- High print resolution, real 720x720 dpi

- Usage of UV CURABLE colors by EU standards

- Colors do not have unpleasant smell, which is very important while printing indoor materials.

- High printing speed without "color mixing" thanks to UL lamps which dry the color.

Durst Rhopac - CMYK + White

Print by EU norms

DURST RHOPAC, CMYK + White color

Direct print to board materials

Maximum board width : 160 cm

Length: unlimited

Maximum board thickness: 40 mm

Printing preferences: Full color in high resolution

Specificity: print with white color over and under the graphic
(over and under white print)

Specificity: high stability and durability of print on most of board materials.

Additional possibilities: priming and varnishing of the material before/after press.

HP Scitex LX 600 - Latex printer

Print by EU norms with ink certifications:
Environment & Greenguard Children and schools.
Maximum print width of 2.64 m in one piece, HF welding unlimited.
Print with six colors (C,M,Y,K, LC, LM).
Print resolution: 1200 x 1200 dpi
Inks are water-based, therefore, are not harmful to health
and can be used in interior spaces
such as schools, kindergartens, retail centers etc.
Color warranty: up to 3 years

The ability to produce the following materials:

- Mesh and Frontlights Wallscapes Banners
- PVC sheet and windows graphics
- Wallpaper
- Textiles, flags and other polyester materials
- Citylights paper (full saturation and color availability in lighting, 100% substitution 3/4)
- All other materials in roll ...

The advantage compared to other ekosolvent, solvent and UV machines:

- High resolution imprint: the actual 1200 x 1200 dpi
- Printing with HP Latex paints, which according to EU standards and certificates application in enclosed spaces such as schools, kindergartens, retail food centers etc.
- The colors do not smell, which is extremely important in Indoor print materials.
- High speed printing and currently dry colors.
- Flexible color

Seiko M-64s

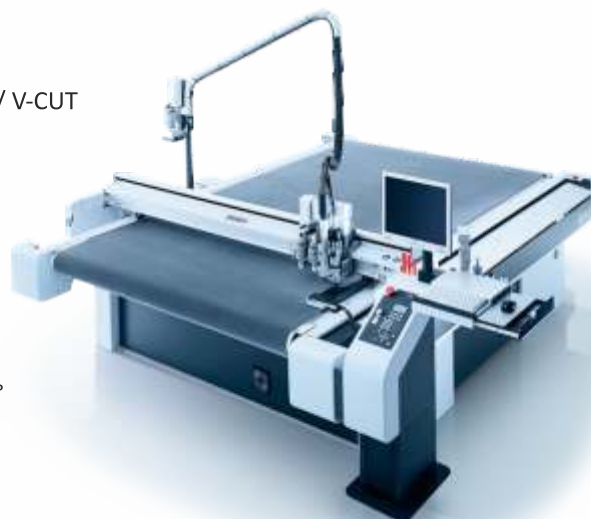

Maximum print width of 1,626 m in one piece,
Print with six colors (C,M,Y,K, LC, LM).
Print resolution: 1440 x 1440 dpi

The ability to produce the following materials:

- PVC sheet and windows graphics
- Wallpaper
- Textiles, flags and other polyester materials
- Citylights paper (full saturation and color availability in lighting, All other materials in roll ...

Zund G3 XL-3200

Working area: 2270mm width X 3200mm length
Maximum cutting depth: 50mm
AVAILABLE TOOLS AND THICKNESS OF POSSIBLE cutting / creasing / grooving / V-CUT
CUTTING BOARD, Cardboards, kapa boards and softer materials
Cutting / creasing / perforating / v-cut cardboard and similar materials
of thickness up to 28 mm
CUTTING plexiglass
possibility of drilling, cutting and engraving in Plexiglas to 22 mm
Cutting hard flat materials: forex, MDF, wood, dibond, aluminum
possibility of drilling, cutting and engraving material thickness up to 32 mm
V-CUT grooving
possibility to commit "softer" material at an angle of 0 °, 15 °, 22.5 °, 30 °, 45 °
V SHAPE FOR COMPOSIT DIBOND BOARDS
ability grooving DIBOND aluminum composite panel bending angle of 90 °

SUMMA D160 R

Vinyl cutting machine

Maximum cutting width: : 160 cm

Length: unlimited

Additional options: Optic for cutting of printed labels.

HF Welding machine

Purpose:

- Welding

- Joining of megaboard Meshes and frontlight wallscapes into unlimited dimensions.

- Reinforcing the edges for metal rings on megaboard Meshes and frontlight wallscapes

- Setting: FM, RIGIFLEX ...

- Length Electrode: 140 cm

- Manufacturer: Forsstrom and AlfaPlast

LAMINATOR

Machine width: 160 cm

Purpose: Lamination of PVC foils to different board materials.

LIQUID LAMINATOR

Width: 330 cm

The liquid laminator has the function of lamination film, tarps and other materials with liquid lamination over print. Liquid lamination additionally protects the color of the materials that were previously printed

LASER WELDING MACHINE FOR METAL

Application materials: aluminum, iron sheets, stainless steel, copper and other metals

CNC BENDER FOR 3D LETTERS

Application materials: aluminum, iron sheets, stainless steel and other metals

Company Vektor Grupa Ltd. pays extreme attention to constant testing and development of new products, in co-operation with customers and market requirements.

Very often, client's demands turn into our development challenge, where we combine all of our available resources and materials, in order to offer our client completely new and exclusive product.

Because of this approach, our clients «grow» together with us.

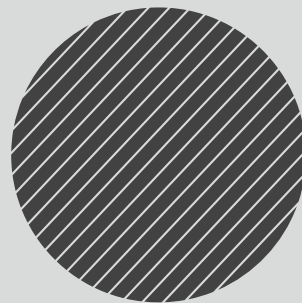

With constant visits to specialized fairs, we complete our range of materials, and we are always in step with printing technologies, where great attention is given to the respect of EU legislation relating to color usage, materials with certificates and the use of LED lighting in order to avoid "Light pollution".

Our company owns **ISO 9001:2008** certificate which guarantees traceability, constant control of used materials, all with a goal that our clients get quality and checked product.
